

What you need:

- plain paper
- scissors
- glue
- pencil
- household materials
- reference image

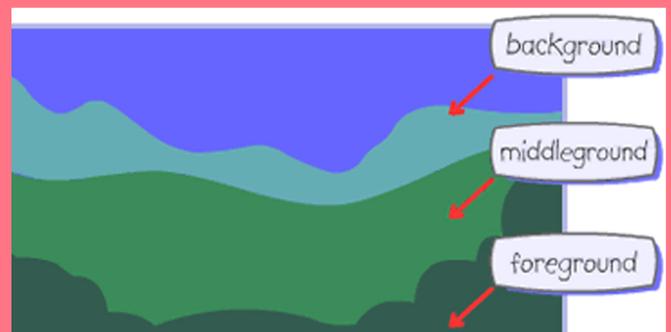

Step 1:

Choose an image you are going to re-create and gather household items that are or have sections which match your chosen image (teabag box for greens, toilet rolls for beige/brown, wrappers for brighter colours).

Step 2:

Use scissors to cut out shapes and strips to re-create sections of your image. Start with larger areas and work from the top to the bottom if you are re-creating a landscape. Observe shadows, shades, highlights, foreground and background. Choose colours to match, darker shades for backgrounds and lighter shades for foregrounds.

Example of background, middleground and foreground.
